**C&EI Mechanical Drawings, 700+ Page Diagram Book or 1915 Valuation Maps:**

The C&EI HS has available on a DVD some **114 mechanical drawings** of the lettering scheme of various freight cars, passenger cars, maintenance of way cars and locomotives, both steam and diesel. These drawings are dated from the 1940's to the 1960's and feature the various lettering schemes used during that period. These are a must for the model railroader that wants to model the railroad. A PDF spreadsheet is included that details the inventory number, drawing number, car type and car number along with a description of the contents. In addition, a **DVD of the C&EI Diagram Book**, some 700+ pages, is available. This DVD covers equipment of locomotives, passenger cars, freight cars, cabooses and M of W equipment from the early 1950's to some of the MoPac acquired equipment.

A **DVD of the 1915 Valuation Maps**, 445 total of the entire railroad (missing 4 in Yard Center area) are available along with St. Louis & O'Fallon (1915), Dearborn Station map (1908) and 37<sup>th</sup> Street Piggyback Yard (1972)
